STAFF

We have a very loving and dedicated staff. Many have Child Development Associate Credentials and some have college degrees. All have had experience working with children.

CURRICULUM

We utilize the state standards and development guidelines when designing curriculum for each age group. The infants follow the Ohio Infant and Toddler guidelines for development activities. The Toddlers use those as well as a curriculum called Pinacle. The Three's and Four's use Joyful Learning and the Pre-K uses some of that along with ABeka.

All of the curriculums used build upon themselves to create a well rounded and inclusive learning program which prepares your child for Kindergarten.
